EASY APP SOLUTIONS

TAAP Visitor Book

TAAP Visitor Book

We've got your track & trace requirements covered.

A contactless, digital solution enabling visitors to sign-in for appointments at your site quickly, without contact or hardware.

TAAP Visitor Book is a modern approach to greeting visitors, eliminating the need for pens, visitor books or touch-screens, supporting adherence to current government guidelines and ensures GDPR compliance.

It's simplicity makes it the ideal solution for organisations of any shape or size – public, private, business, construction, hospitality or leisure.   It tracks visitors and creates a digital visitor badge and photo ID as well as notifying meeting organisers using any smart phone as visitors walk through your door.

TAAP Visitor Book app is the latest, cost-effective digital reception solution delivering an enhanced visitor experience that is fast, efficient and extremely user-friendly.

So, how does it work?

It's as easy as ABC.

A   Organiser invites visitor to a meeting via email

B   Visitor accepts, arrives and signs in using their own phone

C   Organiser is notified by email of visitor arrival

All with no hardware, paperwork or physical contact – just a tap on a phone!

Visitor

The meeting request is accepted and on arrival, the visitor clicks on the embedded 'TAAP Visitor Book App' link to open the App on their phone (iOS or Android) The visitor signs into your site by scanning the QR code displayed at the location. A visitor badge is created and saved to camera roll, Apple Wallet or Google Pass. The visitor is now signed into the building.

Organiser

The organiser receives an e-mail notification that the visitor is waiting in reception. Details will show time, location, and photo ID.
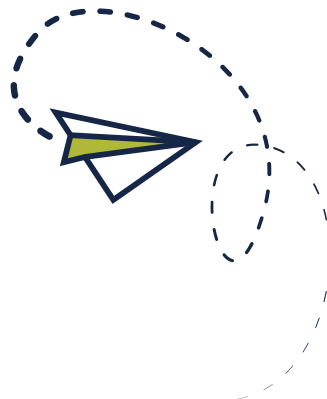

Reception

'TAAP Visitor Book Appt' automatically updates on sign-in and sign-out.

Visitor Badge

You can click on the person to perform an identity check.

Track & Trace

You can view visitor records for Track & Trace purposes

Features

Adheres to current governmental guidelines to re-enforce hygiene and social distancing as well as tracking anyone accessing your building

Supports multiple location and suitable for serviced offices with capability to link to building security

The online portal captures visitor details e.g. name, vehicle reg, phone, email and photo ID providing full audit trail

Records all visitors online, strengthening HSEQ, fire, safety and security procedures

Automatic arrival notification for meeting organiser so no need for attended receptions

No hardware required, advanced QR code generated software solution
