

**Enhanced customer experience  
for the Hospitality Industry.**

## Come on in

With the easing of COVID-19 lockdown restrictions for pubs, restaurants and other hospitality venues, businesses are now legally required to collect customers contact details and record movements as they enter and leave premises.

Escone Appoint is the latest app-based solution to help with track and trace requirements. Powered by 'TAAP Visitor Book app', the contactless, digital solution allows customers to sign-in to your venue with ease.

It's simple, speedy and fully **GDPR compliant**.

Paperwork, physical contact or investment in expensive hardware is not required – with a simple tap on a smartphone, data is accurately captured.

## So, how does it work?

It's as easy as ABC.

Let's break it down...

### A. Customer signs in

Your customers signs into your premises by scanning the QR code displayed at your location.

They will enter their name and contact information on their smartphone and confirm they accept any policies in place within your business.

### B. Appoint updates

'Escone Appoint' will automatically update on sign-in and sign-out

### C. Track & Trace

Records are stored within the system and can be accessed by an administrator if Track & Trace is required.

## Features

Adheres to current governmental guidelines to re-enforce hygiene and social distancing as well as tracking anyone accessing your building

The online portal captures visitor details e.g. name, vehicle reg, phone, email and photo ID providing full audit trail

Automatic arrival notification for meeting organiser so no need for attended receptions

Supports multiple location and suitable for serviced offices with capability to link to building security

Records all visitors online, strengthening HSEQ, fire, safety and security procedures

No hardware required, advanced QR code generated software solution

## Benefits

### Contactless

supports hygienic and safe return to work

### Cost effective

low cost long-term solution with no hardware investment

### Digital

fast and reliable

### User friendly

like ABC, takes 10 mins to set-up

### Track & Trace

improves security and safety of your people

### GDPR Compliant

ensures you adhere to legislation

## Sign me up!

The beauty of Escone Appoint is the cloud-based subscription service can be deployed, configured and set-up in less than 20 minutes.

This includes ensuring GDPR compliance and full integration with your email appointment calendar.

**That's it, you are ready to go!**

## Pricing

£50 per month per site and £5 per month, per additional location.

**Simple as that.**
